

Dynamic

My name is Cyprian May. I am a boy since you started this programme. It has really helped me changed both physically and mentally. When I was in class five I did not actually know maths but I passed other subjects. But when you came you truly helped me with the sessions I have truly become one of the best mathematicians in school. I also did not have my goals set but through the life skills ~~and~~ leadership and motivational talks I have truly set my goals for the future.

Also through the Exposure visits I have ~~to~~ now know the university I will go to and the airport I will go to since my dreams are to be come an pilot. Thank you and may you continue with this programme.
