

Dionorose Njeri

Composition

This Programme has been helping me since twenty six years because there before I joined this Programme I did not know a lot of English and mathematics. I was not reaching even at my target because in English I was targeting forty and above but it was very hard for me to reach at that target. In mathematics I was targeting seventy and above but it was very hard for me. I joined the Programme with a lot of concentration and I even reached to my target and I was very happy. I did not know that I will improve in my studies but I improve with many marks. In mathematics I did not know about construction but now I can do very well. Even my parents have been supporting ^{this} ~~me~~ be-
