

NAME: KATHERA THOMAS MAWUNDU

SCHOOL: ST ELIZABETH PRIMARY SCHOOL

AGE = 15 yrs

### PROFILE

My name is Thomas Mawundu. I have been in the project for three or years. I have been coming since 2016. As I was starting it was boring but it became more happier and interesting when I was in class seven. My grammar and mathematics improved and I got a very high rate from approximately fifty marks to eighty marks. I have most liked the motivational talks and trips because they encouraged me to continue with the journey to success. I have obtained a certificate to remember that I visited Strathmore university and was able to learn more. I am really happy and do wish to continue with the project to continue seeing the a lot change. I can testify that the project is raising me and I do believe by the end of it I would be able to raise another pupils like how the U-TENA project has raised me and built confidence in my life. I do say thank you to U-TENA and God bless you.
